Since God created us, development has been a way of life and one of the universal laws. Development imposes itself on man, so whoever responds to the changes has taken the path to success. Believing in this, we have responded to the rational vision of 2030 and our presence in the Saudi market in the contracting sector with our new company, Emaar Al-Madina Advanced Contracting, after an experience that extended for more than 20 years in the Kingdom in which we assumed responsibility & management of some institutions and companies.

We had the honor of implementing several projects of distinguished brands in the Eastern Province, and we will review them together in the profile... and our belief in this development as we look forward to the horizons of the future, hoping that we will be contributors to the development of the contracting sectors performance.
